# **RECOMMENDED PACKING LIST**

All **SPECOPS** adventure packages are on-the-move experiences; therefore, we advise not to pack too much or else you'll slow the group down, take up a lot of space, and everyone will become sad. We will also have an opportunity to wash clothes during the trip.

# **Prior Planning Prevents Problems!**

Although it is highly unlikely that you and your luggage arrive at different times, it has been known to happen. We suggest that your carry-on contain personal hygiene gear and at least one set of clothes—better safe than sorry.

SPECOPS recommends you do some homework to get a briefed up on terror threats, travel security, criminal activity, and political stability in the area where you want to go: <u>http://travel.state.gov/</u>.

During the journey, the SPECOPS guides carry fully stocked aid bags along with snivel items such as Tylenol and Band-Aids. We also bring a digital camera, 35 mm camera, and a laptop. During the trip, guests will have Internet access enabling them to keep up with the world they left behind, if necessary.
